# ProProctor™ Feature Release

Introducing Scratchpad

ProProctor introduces a new online utility in the application: Scratchpad.

Candidates will initiate Scratchpad in the same manner as the chat window. Scratchpad opens as a floating window for candidates to capture digital notes during their exam.

Core Capabilities

- Floating window
- Ability to resize window
- Open and close window as often as needed
- Data is retained in the event a disruption of service is experienced
- Data will be purged at the conclusion of the exam event (when exam is completed)
- Ability to clear all data
- Unlimited characters with scroll capabilities

Text Functionality

- Rich text format
- Font size (select sizes)
- Basic formatting
- Bullet list
- Numbered list
