INTRODUCTION TO THE CODE AND STANDARDS

CFP Board’s *Code of Ethics and Standards of Conduct* reflects the commitment that all CFP® professionals make to high standards of competency and ethics. The *Code of Ethics* applies at all times, and sets forth principles that guide the behavior of CFP® professionals, with elaboration provided in the *Standards* that follow. The cornerstone of the *Code and Standards* is a CFP® professional’s duty to act as a fiduciary and, therefore, act in the best interests of the Client at all times when providing Financial Advice.

*CODE OF ETHICS*
A CFP® professional must:

- Act with honesty, integrity, competence, and diligence.
- Act in the client’s best interests.
- Exercise due care.
- Avoid or disclose and manage conflicts of interest.
- Maintain the confidentiality and protect the privacy of client information.
- Act in a manner that reflects positively on the financial planning profession and CFP® certification.
The **Code and Standards** sets forth the duties that a CFP® professional owes to Clients, firms and subordinates, and CFP Board. Most duties apply at all times. Additional duties apply when a CFP® professional is providing Financial Advice and when a CFP® professional is providing Financial Advice that requires Financial Planning. The duties that apply at all times also apply when providing Financial Advice and when providing Financial Advice that requires Financial Planning. The duties that apply when providing Financial Advice also apply when providing Financial Advice that requires Financial Planning.

The cornerstone of the Code and Standards is the Fiduciary Duty. At all times when providing Financial Advice to a Client, a CFP® professional must act as a fiduciary and, therefore, act in the best interests of the Client.

What does it mean to act as a fiduciary and, therefore, act in the best interests of the Client? A CFP® professional must fulfill the following duties:

**Fiduciary Duty**

- **Duty of Loyalty**
  
  A CFP® professional must:
  1. Place the interests of the Client above the interests of the CFP® professional and the CFP® Professional's Firm;
  2. Avoid Conflicts of Interest, or fully disclose Material Conflicts of Interest to the Client, obtain the Client's informed consent, and properly manage the conflict; and
  3. Act without regard to the financial or other interests of the CFP® professional, the CFP® Professional's Firm, or any individual or entity other than the Client, which means that a CFP® professional acting under a Conflict of Interest continues to have a duty to act in the best interests of the Client and place the Client's interests above the CFP® professional's.

- **Duty of Care**
  
  A CFP® professional must act with the care, skill, prudence, and diligence that a prudent professional would exercise in light of the Client's goals, risk tolerance, objectives, and financial and personal circumstances.

- **Duty to Follow Client Instructions**
  
  A CFP® professional must comply with the terms of the Client engagement and follow all directions of the Client that are reasonable and lawful.

AM I PROVIDING FINANCIAL ADVICE?

WHAT IS FINANCIAL ADVICE?

• A communication that, based on its content, context, and presentation, would reasonably be viewed as a recommendation that the Client take or refrain from taking a particular course of action with respect to:
  - The development or implementation of a Financial Plan;
  - The value of or the advisability of investing in, purchasing, holding, gifting, or selling Financial Assets;
  - Investment policies or strategies, portfolio composition, the management of Financial Assets, or other financial matters; or
  - The selection and retention of other persons to provide financial or Professional Services to the Client; or
• The exercise of discretionary authority over the Financial Assets of a Client.

WHAT IS NOT FINANCIAL ADVICE?

• A communication that, based on its content, context, and presentation, would not reasonably be viewed as a recommendation;
• Responses to directed orders; and
• The following, if a reasonable CFP® professional would not view it as Financial Advice:
  - Marketing Materials;
  - General Financial Education; and
  - General Financial Communications.

The determination of whether Financial Advice has been provided is an objective rather than subjective inquiry.

The more individually tailored the communication is to the Client, the more likely the communication will be viewed as Financial Advice.
AM I PROVIDING FINANCIAL PLANNING?

If the answer to any of the following is YES, then this is a Financial Planning Engagement, and you must comply with the Practice Standards for the Financial Planning Process. If NO, then the engagement for Financial Advice does not require Financial Planning, and you are not required to comply with the Practice Standards for the Financial Planning Process.

Have I agreed to provide or have I provided Financial Planning?

☐ YES  ☐ NO

Integration Factors:
- The number of relevant elements of the Client’s personal and financial circumstances that the Financial Advice may affect;
- The portion and amount of the Client’s Financial Assets that the Financial Advice may affect;
- The length of time the Client’s personal and financial circumstances may be affected by the Financial Advice;
- The effect on the Client’s overall exposure to risk if the Client implements the Financial Advice; and
- The barriers to modifying the actions taken to implement the Financial Advice.

Does the Financial Advice I agreed to provide require integration of relevant elements of the Client’s personal and/or financial circumstances in order to act in the Client’s best interests, taking into account the Integration Factors set forth to the right?

☐ YES  ☐ NO

Does the Client have a reasonable basis to believe that I will provide or have provided Financial Planning?

☐ YES  ☐ NO

What do you do if the Client doesn’t agree to engage you for Financial Planning? Pick One.

☐ Not enter into the Engagement; or

☐ Limit the Scope of Engagement to services that do not require application of the Practice Standards for the Financial Planning Process, and describe to the Client the services the Client requests that the CFP® professional will not be performing; or

☐ Provide the requested services after informing the Client how Financial Planning will benefit the Client and how the decision not to enter into a Financial Planning engagement may limit the Financial Advice; or

☐ Terminate the Engagement.
When to Document:
A CFP® professional must act prudently in documenting information, as the facts and circumstances require, taking into account:
- The significance of the information;
- The need to preserve the information in writing;
- The obligation to act in the Client’s best interest; and
- The Firm’s policies and procedures.

Acceptable Documentation:
Options include using:
- CRM software;
- Handwritten notes; or
- Emails.
A CFP® professional has a duty to provide information to a Client. Whether information may be provided orally or must be provided in writing depends upon whether the Financial Advice that is being provided requires Financial Planning.

CFP Board has prepared a **Financial Advice Engagements Disclosure Guide** and a **Financial Planning Engagements Disclosure Guide**. The Disclosure Guides describe in detail the Duty to Provide Information to a Client. Set forth below is a brief summary of the categories of information that must be shared with the Client, and whether the information must be provided orally or in writing. ### Examples of assumptions and estimates:

- Life expectancy
- Inflation rates
- Tax rates
- Investment returns
- Other material assumptions and estimates
### Standards

• Analyze the current course of action.

• Analyze potential alternative courses of action.

### Tips

• Always determine whether the Client’s current course of action maximizes the potential for meeting the Client’s goals.

• Note that a potential alternative course of action does not become a recommendation until the CFP® professional selects it as a recommendation in Step 4 of the process.
### Standards

- From the current and potential alternative courses of action, select one or more recommendations designed to maximize the potential for meeting the Client’s goals.

### Tips

- For each recommendation selected, you must consider the following:
  - The assumptions and estimates used to develop the recommendation;
  - The basis for making the recommendation, including:
    - How the recommendation is designed to maximize the potential to meet the Client’s goals,
    - The anticipated material effects of the recommendation on the Client’s financial and personal circumstances, and
    - How the recommendation integrates relevant elements of the Client’s personal and financial circumstances;
  - The timing and priority of the recommendation; and
  - Whether the recommendation is independent or must be implemented with another recommendation.

- Sometimes no change is necessary; the recommendation may be to continue the Client’s current course of action.
- Document the basis for your recommendations.
- Consider whether to modify previously selected goals.
## Standards

- Present to the Client the selected recommendation(s) and the information that was required to be considered in developing the recommendation(s).

## Tips

- This is an opportunity to engage the Client in a conversation about your recommendations.
- Consider whether to modify previously selected goal.
- Recommendations may be presented orally, in writing, in person, over the phone, or in another format that enables the Client to understand the recommendations.
- Consider the complexity of your recommendations when determining the format in which to present your recommendations.
- Document the recommendations. If you present the recommendations in writing, then retain a copy of the presentation.
- Tailor the presentation to the Client’s level of sophistication.

### Standards

- Establish monitoring and updating responsibilities.

- Monitor the Client’s progress.

- Obtain current qualitative and quantitative information.

- Update goals, recommendations, or implementation decisions.

### Tips

- When you have responsibilities for monitoring and updating, you must communicate to the Client:
  - Which actions, products, and services are not subject to your monitoring responsibility;
  - How and when you will monitor actions, products, or services;
  - The Client’s responsibility to inform you of any Material changes to the Client’s qualitative and quantitative information;
  - Your responsibility to update the Financial Planning recommendations; and
  - How and when you will update the Financial Planning recommendations.

- Consider documenting your implementation, monitoring, and updating efforts.

- Be realistic and clear in setting monitoring expectations.

- Monitoring is an ongoing obligation unless the Engagement is terminated.

- You should document when the Engagement is not ongoing.

- Ensure that you have appropriate access to or authority to communicate with third parties to gather information to fulfill your monitoring responsibilities.

- If you have monitoring responsibility, analyze at appropriate intervals the progress toward reaching Client goals and review with the Client the results of your analysis.

- If you have monitoring responsibility, collaborate with the Client in an attempt to obtain current qualitative and quantitative information concerning the Client’s personal and financial circumstances.

- If you have updating responsibility, and circumstances warrant changes, update as appropriate in accordance with the Practice Standards for the Financial Planning Process.
CFP Board designed this guide to help CFP® professionals evaluate whether they are providing information and services in accordance with CFP Board’s Code of Ethics and Standards of Conduct (“Code and Standards”) when they are providing Financial Advice. Under certain circumstances, a CFP® professional is required to update the information provided to a Client.

SECTION A: THE FIDUCIARY DUTY

At all times when providing Financial Advice to a Client, a CFP® professional must act as a fiduciary and, therefore, act in the best interests of the Client. (Standard A.1.)

Duty of Loyalty:

☐ Have I placed the interests of the Client above the interests of me and my firm?

☐ Have I avoided Conflicts of Interest, or fully disclosed Material Conflicts of Interest to the Client, obtained the Client’s informed consent, and properly managed the conflict?

☐ Have I acted without regard to the interests of me and my firm, and any individual or entity other than the Client?

Duty of Care:

☐ Have I acted with the care, skill, prudence, and diligence that a prudent professional would exercise in light of the Client’s goals, risk tolerance, objectives, and financial and personal circumstances?

☐ Have I complied with all objectives, policies, restrictions, and other terms of the Engagement, and all reasonable and lawful directions of the Client?

SECTION B: IS THIS A FINANCIAL PLANNING ENGAGEMENT?

If the answer to any of the following is yes, then this is a Financial Planning Engagement and you must comply with the Practice Standards for the Financial Planning Process. If no, then the engagement for Financial Advice does not require Financial Planning, and you are not required to comply with the Practice Standards for the Financial Planning Process. (Standards B.3. and B.4.)

☐ Have I agreed to provide or provided Financial Planning?

☐ Does the client have a reasonable basis to believe that I will provide or have provided Financial Planning?

☐ Does the Financial Advice I agreed to provide require integration of relevant elements of the Client’s personal and/or financial circumstances in order to act in the Client’s best interests, taking into account the following Integration Factors?

- The number of relevant elements of the client’s personal and financial circumstances that the Financial Advice may affect;
- The portion and amount of the Client’s financial assets that the Financial Advice may affect;
- The length of time the Client’s personal and financial circumstances may be affected by the Financial Advice;
- The effect on the Client’s overall exposure to risk if the Client implements the Financial Advice; and
- The barriers to modifying the actions taken to implement the Financial Advice.

If I otherwise must comply with the Practice Standards for the Financial Planning Process, but the Client does not agree to enter into a Financial Planning engagement, have I done one of the following:

☐ Not enter into the Engagement;

☐ Limited the Scope of Engagement to services that do not require application of the Practice Standards for the Financial Planning Process and described to the Client the services the Client requests that the CFP® professional will not be performing;

☐ Provided the requested services after informing the Client how Financial Planning would benefit the Client and how the decision not to enter into a Financial Planning engagement may limit the Financial Advice; or

☐ Terminated the Engagement.

☐ Have I disclosed any arrangement by which someone who is not the Client will compensate or provide some other material economic benefit to me, my firm, or a Related Party for engaging or recommending the selection or retention of additional persons to provide financial or Professional Services to the Client?
